

## Lesson 4, Settings

A horizontal navigation bar with a light blue background and a thin blue border. It contains six links: Home, Profile, Find People, Settings, Help, and Sign out, all in a blue sans-serif font.

At the top right of the twitter homepage are links to your **Profile**, **Find People**, **Help**, etc. Under the **Settings** tab, you will find tabs for:

### Account

From here you can change your basic account info, fill in your profile data, and set whether you want to be private or public.

A horizontal sub-menu with a light blue background and a thin blue border. It contains seven tabs: Account, Password, Mobile, Notices, Picture, Design, and Connections. The 'Account' tab is highlighted with a dark blue background.

### Password

Be tricky! Your password should be at least 6 characters and not a dictionary word or common name. Change your password on occasion.

### Devices - Twitter with SMS

Sending updates to Twitter while you're away from your computer makes things much more interesting.

### Notices

These settings control how much Twitter bugs you about various things.

### Picture

Your Twitter profile pic helps instantly identify you to those following you -- and tells those who aren't more about you. You can upload a picture from your computer files, CD, or, flashdrive.

### Design

Customize the way Twitter looks for you and how your profile looks to others. Start with a pre-designed theme -- and then, optionally, customize it with your own color scheme and background image.
